

## Discovering Cu Chi Tunnels: A Veteran's Guided Experience

### Description

Explore the Cu Chi Tunnels on a guided tour. Learn about the history of the underground passageways from a Vietnam War veteran and, if you feel like it, try firing an M16 or AK-47 rifle at a firing range. Choose whether to take the tour in a small group or to book a private tour.

Get picked up from your accommodation and travel in comfort to the Ben Dinh tunnel entrance with your tour guide. Here, you'll find replicas of booby traps, sleeping quarters, and barracks to give you a feel for the reality of life during the war.

Listen to a detailed history of the Cu Chi Tunnels from a local Vietnam War veteran and wander around the labyrinth of passageways while learning about the history and importance of this site.

On days that the Vietnam War veteran is unable to lead the tour, enjoy the company of a guide from the family of Phan Thi Kim Phuc, known as Napalm Girl. Listen to fascinating tales about how Phuc survived a napalm bomb attack where she was famously photographed fleeing her village naked at nine years old.

After touring the tunnels, you'll arrive at a firing range where you'll have the option to fire an M16 or AK-47. Then you'll head back to Ho Chi Minh and be dropped off at your accommodation to end the day's trip.
